SABRENT USB BLUETOOTH ADAPTER

Add Bluetooth wireless technology to your Desktop or Notebook at a fraction of the size of normal Bluetooth USB adapters. Simply connect your Wireless Bluetooth Dongle to an available USB port to easily pair up to seven (7) Bluetooth devices, such as cell phones, PDAs, mice and keyboards. The Sabrent adapter features Bluetooth 2.0 EDR (Enhanced Data Rate) technology for transfer rates that are 3 times faster than traditional Bluetooth 1.1 and 1.2 adapters, data transfer up to 3Mbps.

FEATURES

- Share/Edit/Print documents via Bluetooth
- Enable wireless connectivity between a notebook computer and a cellular phone
- Access internet via Bluetooth Mobile phone with GPRS/ CDMA or Bluetooth-enabled PC with internet connection
- Connect a Bluetooth headset to your PC
- Supports up to 7 ACL connections and 3 SCO connections
- Built-in Link controller and Link Manager Protocol
- USB interface works with desktop and notebook computers

SYSTEM REQUIREMENTS

- Available USB port
- Windows XP, Windows VISTA, Windows 7
- Mac OS X v 10.1.2 and Higher

DRIVER INSTALLATION

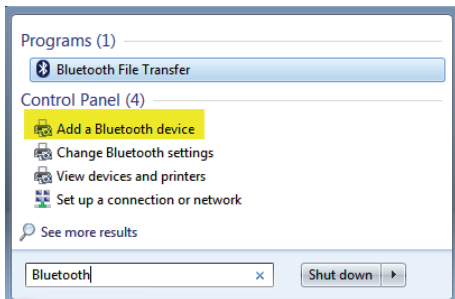

Note: This depiction is based on Vista/7, but under other operating systems, it may be slightly different.

1. Insert the Sabrent Bluetooth Adapter into an available USB port on your computer.
2. Windows Vista/7 will automatically find and install drivers for the Adapter. If Windows prompts you to search for latest drivers online, select OK to complete the driver installation.
3. At this point you should see the Adapter fully installed in Device Manager:

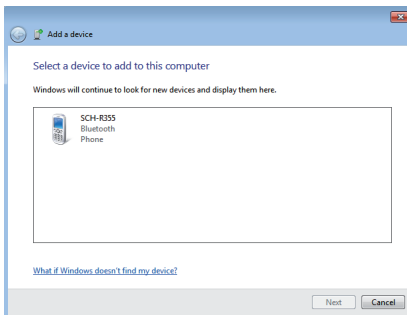

Networking Bluetooth Devices:

1. Windows Vista/7, click the Start button and type "Bluetooth" into the search box. This will bring up several options; select Add a Bluetooth device.
