

# 4-BAY USB TYPE-C DOCKING STATION FOR NVMe ENCLOSURES

WITH BUILT-IN COOLING FAN

## FEATURES

- Add up to four of your preferred USB Type-C external devices and disks to a self-powered and centralized docking station.
- Supports up to 4 x USB Type-C M.2 PCIe SSD enclosures with a total transfer speed of up to 1000 MB/s.
- Get a stable and reliable USB connection on systems that lack sufficient power over USB ports.
- Independent cooling fan can be switched on and off as desired.
- Individual LED power indicators.

## PACKAGE CONTENTS

1. 4-Bay USB Type-C docking station.
2. 100-240V AC to 12V 3AMP DC power supply.
3. US plug adapter.
4. Type-C plug adapter for Europe and South America.
5. UK plug adapter.
6. USB Type-C to Type-C cable.
7. This user guide.

## PARTS OF THE DOCKING STATION

- 1 USB Enclosure Slots
- 2 Power Switch
- 3 HDD Slots LEDs
- 4 Built-In Fan Switch
- 5 Built-In Fan
- 6 USB Cable Interface
- 7 Power Cable Interface

## INSTALLING YOUR ENCLOSURES IN THE DOCKING STATION

1

**STEP 1**

Open the docking station by lifting the magnetic lid straight up.

2

**STEP 2**

Carefully insert each USB enclosure until it is properly connected to the protruding USB port at the bottom of each bay. The direction is unimportant as the USB Type-C connector is fully reversible.

3

**STEP 3**

For smaller enclosures, adjust the bay's brackets to the desired size and then insert the enclosure.

4

**STEP 4**

Place back the magnetic lid to close the docking station. Turn on the docking station with the power switch and push the fan's button to turn on the unit's built-in cooling fan.
