NOTES

• This is backwards compatible on USB 2.0 and 1.1 with their transfer speeds.

- Please do not remove your hard drive while hard drive is being accessed.
- The dock will automatically go into sleep mode if the connection is left idle for more than 30 minutes.

• Accessing the hard drive will automatically cancel sleep mode and power back up the hard drive.

TROUBLESHOOTING/SUPPORT

Power LED does not come on?

- Make sure that you have a tight connection between the power adapter and dock.
- Try it on a different power outlet.

HDD LED does not come on?

- Re-seat the hard drive into the bay.
- Swap the hard drive out with a spare.

Computer does not recognize the hard drive?

- Make sure that you have a tight connection between the dock and 3.0 cable.
- Try the USB cable on a different USB port on your computer.
- New hard drives must be setup, please review new hard drive setup for your OS.
- Swap the hard drive out with a spare.

Please contact our Technical Support team if issues continue
