

GoPro® HERO4 Session rechargeable external battery with cases

WHAT'S INCLUDED

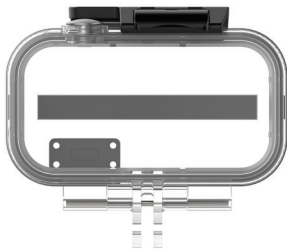

EcstaPro Extended 2000 mAh
Battery For GoPro Hero4 Session

Protective Frame

Waterproof Case

Mount Adapter

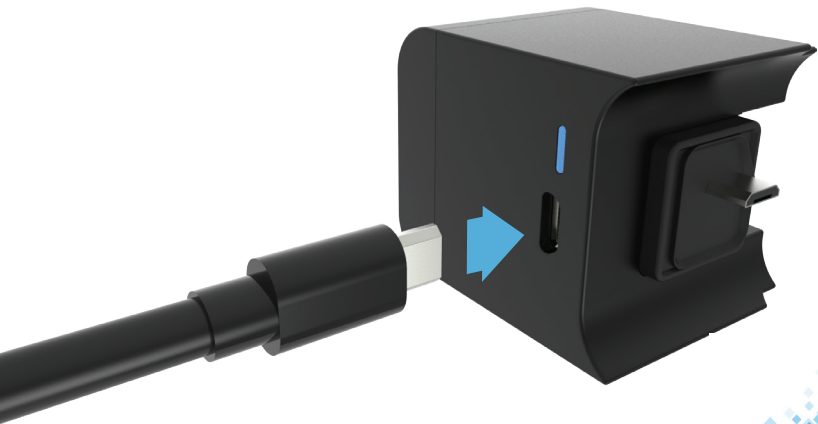

TO CHARGE

The EcstaPro Session Battery can be charged on its own or while attached to your GoPro® Session

To charge in either scenario plug in the micro USB charging plug included with your GoPro® Session to the charging port on the EcstaPro extended battery

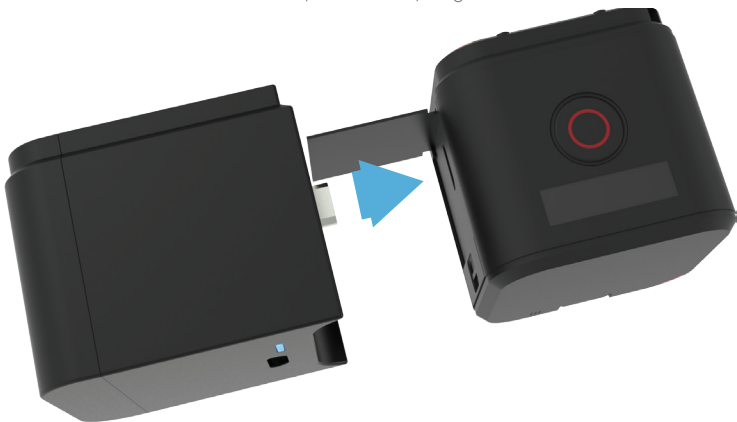

The EcstaPro will be fully charged in about 2.5 hours

TO CONNECT

To use the EcstaPro Extended Battery, simply connect the male USB adapter on the EcstaPro to the female USB port on your GoPro® Session

Once attached place the GoPro® and EcstaPro into the desired case and you are ready to go

**Please Note**

The low profile case is not waterproof and thus should not be used in or near water
Do not use the waterproof case at more than 5 meters in water depth
