

SABRENT
Connecting Differently™

USB TYPE-C TO GIGABIT ETHERNET ADAPTER

NT-USBC USER MANUAL

With the Sabrent USB-C to Gigabit Ethernet Adapter, you can now enjoy ultra-fast Gigabit Ethernet speeds on your Desktop or Notebook with an available USB-C port. Simply plug your Ethernet cable into the Sabrent Adapter and the USB-C cable into your computer to conveniently establish a high-speed connection.

Features

- Compatible with IEEE 802.3, IEEE 802.3u, IEEE 802.3ab
- Supports IEEE 802.3az (Energy Efficient Ethernet)
- Upstream port type: USB 3.0 type C
- Reliable speeds up to 1 Gbps
- Downstream port type: Ethernet (RJ45)

Installation

1

Connect Adapter to an available USB Type-C port on your computer

2

Connect an ethernet cable coming from your router or modem to the adapter

3

You should now have a reliable ethernet connection

Notes

You may have to Turn AirPort off to disable your wireless adapter.

In some cases, you will need to power cycle your router or modem.

Swapping RJ45 cables can resolve connection issues.
