

THUNDERBOLT™ 3 DUAL HDMI 2.0 DISPLAY ADAPTER

CONNECT TWO HDMI DISPLAYS TO A THUNDERBOLT™ 3 INTERFACE

THUNDERBOLT™

TH-W3H2 USER MANUAL

The Thunderbolt™ 3 Dual HDMI 2.0 Display Adapter easily connects two HDMI Displays to a Thunderbolt™ 3 interface. Plug & Play tool-less installation makes for an easy setup.

1

Connect the adapter to an available Thunderbolt™ 3 port on your computer

2

Connect your displays to the HDMI ports on this adapter

3

Your displays should automatically extend

4

**Go into your display settings to
customize your screens**

NOTES

4K supported HDMI cable and Display is required
for a 4K resolution

Backward compatible with your high-definition
1080p displays

Make sure that your Display is set
to the correct Input Source

**Please contact our Technical Support Team
for additional troubleshooting**
