

UNIVERSAL FLEXIBLE TRIPOD WITH BALL HEAD

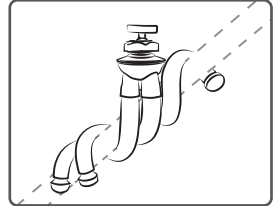

PLEASE READ CAREFULLY BEFORE USING

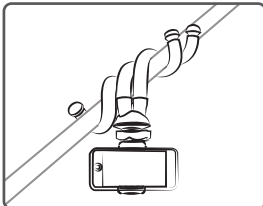

1/4"-20 Universal Camera Screw.

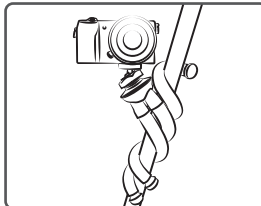

The angle of the ball head can be adjusted by rotating the locking knob counter clockwise, allowing the camera/phone to be adjusted to the desired position.

You can hang it upside down, wrap it around table legs and poles, or use it as a traditional small tripod.

Rubber-coated steel legs ensure a safe grip, they protect surfaces as well as soften small vibrations.

Flexible legs can securely wrap around virtually any surface.

1/4"-20 universal camera screw can be directly attached to a regular cam or a phone or a GoPro® camera can be used with the included phone holder and GoPro® adapter.

- Maximum Load: Up to 1KG / 2.2 lbs.
- Weight: 227g / 0.5 lbs.
